Print length : 124 pages

The book is divided into two parts. The first part provides a brief overview of statistical concepts, such as probability, sampling, and hypothesis testing. The second part provides a step-by-step guide to choosing the right statistical test for your research. The book includes:

- A table of statistical tests, organized by type of data and research question
- A flowchart to help you choose the right test
- Examples of how to use each test
- A glossary of statistical terms

Whether you are a student, researcher, or professional, this book will help you choose the right statistical test for your research.

## Table of Contents

- Chapter 1: to Statistical Concepts
- Chapter 2: Choosing the Right Statistical Test
- Chapter 3: Examples of Statistical Tests
- Chapter 4: Glossary of Statistical Terms

## About the Author

John Doe is a statistician with over 20 years of experience in research and teaching. He is the author of several books and articles on statistics, including the best-selling book "Statistics for Dummies." He is also a frequent speaker at conferences and workshops on statistics.
