Layering and Blending

Alcohol markers excel in layering and blending, allowing you to achieve depth and dimension in your artwork. Start by applying light layers of your desired colors, gradually increasing the intensity until you achieve the desired opacity. Use blending techniques, such as a colorless blender marker or rubbing alcohol, to soften transitions and create smooth gradients.

Shading and Highlights

Master the art of shading and highlights to bring your creations to life. Use darker tones to create shadows and add depth, while blending lighter tones to create highlights and emphasize contours. Experiment with layering different shades to build form and texture.

Wet-on-Wet and Wet-on-Dry

Explore the transformative effects of applying alcohol markers wet-on-wet or wet-on-dry. Wet-on-wet allows for seamless blending and ethereal effects, while wet-on-dry creates sharper lines and more defined details.
